

Ardent Mills Emerging Nutrition

Our alternative grains center of expertise

Partnering

with you to deliver what's next in food.

At Ardent Mills, we're cultivating the future of alternative grains from field to fork. What does that mean for you?

- ◆ It means you can rely on our alternative grains center of expertise to help you explore, understand, and develop innovative solutions that can help you grow your business, all backed by the trusted resources and comprehensive capabilities that make Ardent Mills the supplier partner of choice.
- ◆ And it means you can have confidence in a supplier partner that will help you evolve with ease, **keeping you ahead of emerging trends and in step with consumer preferences.**

It means you can trust the quality, safety, and delivery at every step of the supply chain.

Proven expertise

Our integrated approach brings together the top talent to ensure that our solutions are powered by real-world insights, culinary expertise, business experience, and grower excellence.

Research and development

To help you turn inspiration into reality, our R&D team is at your service — from ideation to implementation, crafting flexible solutions to the challenges you face.

Technical support

Our industry-leading technical services team provides troubleshooting and optimization — in the lab or onsite at your facility.

Leadership in sustainability

To further our mission of sustainability, we're stewards of the resources that bring grain-based foods to a hungry world.

Extensive product knowledge

As a leader in grain and plant-based ingredient solutions, Ardent Mills' specialized product teams are ready to help optimize your product offerings.

Exactly where you need us to be

-  Headquarters
-  Community Facilities
-  Office Locations
-  Pack Centers

Our footprint

Ardent Mills is working to transform how the world is nourished. As the premier flour-milling and ingredient company, we cultivate the future of food to help our customers and communities thrive.

We operate more than 40 locations focused on flour, quinoa, pulses and organic and gluten-free products that drive innovation and ultimately supply nutritious food across North America. Our holistic portfolio empowers us to meet the complex needs of customers today while focusing on the growing needs of tomorrow's consumer.
