

Chickpeas

As your single source for chickpeas in whole bean, splits, and flour formats, our team is equipped to supply you with scalable volumes, R&D resources and strategic supply chains.

Pulses: chickpeas or garbanzo beans - which ever you call them are on trend and packed with nutrients. They are inherently gluten free, an excellent source of protein and fiber*, and a good source of thiamine & folate**. With the addition of the Hinrichs Trading Company to the Ardent Mills family, your chickpea solutions are backed by the leaders in chickpea expertise, cleaning, and streamlined supply chains with our direct network of 100+ family farms.

With a range of bean sizes (7 - 10mm), as well as bag and tote volumes (20 kg. - 1 Ton), we are ready to support the growing industry trends that star chickpea's role in growing dietary trends as well as traditional and innovative products.

Chickpea Formats
