Emerging Nutrition

Collaborate with our alternative grains center of expertise and cross-functional teams to innovate in this space with confidence. Our passionate experts have the specialized skills and knowledge to drive growth, backed by Ardent Mills' proven sourcing, grower relationships and supply chain excellence to ensure field to fork success.

Gluten-Free. Elevated.

With growing market demand in alternative grains, Ardent Mills has further expanded its capabilities by acquiring Hinrichs Trading Company (HTC), the North American leader in chickpea sourcing, cleaning and packaging, and Firebird Artisan Mills, a leading gluten-free, specialty grain and pulse milling company.

Custom blends & mixes

Backed by expert R&D and technical service professionals, Ardent Mills can build (or create) the perfect blend for your applications with our leading portfolio of refined flours and innovative whole grains:

- Custom grain & seed blends
- Complete mixes (e.g., pizza mixes)
- Gluten-free blends
- Net carb blends

Enhanced food safety

Ardent Mills' SafeGuard® Treatment & Delivery System is a patented, comprehensive, integrated solution that dramatically reduces food safety risk with up to a 5-log validated pathogen reduction, while maintaining optimum flavor, texture and appearance.
